NEW OAC Morden
Conventional Soybean

Description
OAC Morden is a 2450 HU conventional soybean variety for mid to long season soybean production areas in Manitoba. This light buff hilum variety has potential for food grade programs.

Performance
- 105% of yield check OAC Prudence in Manitoba (Seed MB 2016)

Strengths
- Great podding height
- Good lodging resistance
- Slightly taller than OAC Prudence
- Matures 4 days later than OAC Prudence

Management
- Semi tolerant to IDC
